Premier Estate Properties and Saunders & Associates Announce Alliance Between Two Leading Ultra Luxury Real Estate Powerhouses

The strategic partnership allows both to enhance services and resources for an affluent clientele that winters in South Florida and summers in The Hamptons

Premier Estate Properties and Saunders & Associates announce a strategic partnership that seamlessly connects two of the nation's most coveted luxury destinations, bringing

together independently owned boutique firms with decades of specialized, high-end expertise. The firms are uniquely aligned in vision, values, and, importantly, a clientele of high-net-worth individuals seeking world-class concierge service and exceptional lifestyle properties. Additionally, each has synergistic offices, top-ranked agents, and far-reaching connections.

This natural alliance between Premier Estate Properties and Saunders & Associates will serve two dynamic, ultra-affluent markets. Both firms will share listing information and opportunities among agents at the respective firms, with listing information promoted in both markets and presented directly to agents on both teams. Both firms will also establish referral opportunities, as well as joint networking events and gatherings in which agents can tour properties, build relationships, and expand their market connections.

Since its founding in 1993, Premier Estate Properties is the only brokerage dedicated to the marketing and sale of Florida properties exclusively in excess of one million dollars. The firm is owned and operated by Brokers-Owners Gerard P. Liguori, Carmen N. D'Angelo Jr., and Joseph G. Liguori. With company sales exceeding \$22 billion and a diverse \$2 billion estate portfolio of the finest properties along Florida's East Coast; seven strategic coastal offices in Boca Raton, Palm Beach, Delray Beach, Vero Beach, and Fort Lauderdale; and an exclusive affiliation with an incomparable global network, Premier Estate Properties consistently outperforms companies many times its size, with only 50 top-tier agents.

Led by Founder and President Andrew Saunders, Saunders & Associates is the Hamptons' largest privately owned and operated real estate brokerage firm, with more than \$25 billion in sales and rentals. Founded in 2008 on the principle of "A Higher Form of Realty," the firm was built to provide unmatched support, marketing, and technology for its agents and clients. With 200 top-tier agents, Saunders represents a significant number of exclusive listings and participates in a substantial share of Hamptons transactions. In 2025, Saunders & Associates executed more than \$1.5 billion in transactions, representing properties from Westhampton to Montauk.

Together, Premier Estate Properties and Saunders & Associates redefine what it means to serve the luxury real estate market—delivering unparalleled reach, expertise, and service across two of the most prestigious coastal destinations in the United States.
